

MODERN FORMS
SMART FANS

2021

Sleek design, advanced technology and flexible control solutions.

Connect with smart home devices you already own to ensure the ultimate in comfort and seamless interoperability. With state-of-the-art features, color temperature options and silent energy-efficient DC motors, our smart fans stand alone. The future of luxury is here.

DESIGN INTEGRITY

Intentionally engineered for durability and continuity throughout your design.

MATERIALS

Sturdy die-cast aluminums & marine-grade stainless steel housings provide elegance and sophistication.

COHESIVENESS

Maintain design continuity indoors and out by selecting a designer fan that complements the architecture.

WET RATING

Wet rated Smart Fans celebrate your home as an oasis for both indoor and outdoor living.

Across the Modern Forms brand, each smart fan is beautifully crafted for both interior and exterior applications. Architectural powder coat finished or 316 Marine grade stainless steel housings and rigid composite or solid carved wood blades are among the upgrades built in across the line.

Adding outdoor rated fans extend your enjoyment of the seasons by delivering a refreshing wind chill or keeping the bugs off while surrounded by nature.

The range of outdoor-rated designs ensure you can maintain perfect harmony with the architectural style of any structure.

Whether you need a tiny 26 inch flush mounted fan or an epic 120 inch fan, Modern Forms has a fan that will allow you to carry your design throughout indoor and outdoor living spaces for seamless design continuity and connectivity.

MODERN FORMS SMART FAN TECHNOLOGY

BEST OF BREED.

Modern Forms is the only brand of ceiling fans complete with a range of sizes and designer styles that include intelligent controls and is suitable for indoor or outdoor use. Unprecedented innovation and sophistication for connected living.

Each Modern Forms Smart Fan is intuitive enough for the modern customer—simple, yet personalized. Every fan is engineered to adapt its own operating schedules to your routine, reduce energy costs and make life simpler all year-round. Or if you prefer an off-line experience, on installation, each fan operates simply and consistently at the push of a button on a factory-paired Bluetooth remote or wall control.

Enhanced security and multiple-user limited authority makes it suitable for both residential and commercial environments. Plus, multiple fans can operate on one circuit as never before, limited only by the load capacity of the circuit.

The smart fans integrate seamlessly with leading smart home devices you already own, including Control4, Google Assistant, Josh AI, Alexa and Samsung SmartThings. Incorporate voice commands for a modern connected experience. Sync Modern Forms Smart Fans with smart thermostats such as Ecobee, to reduce heating and cooling bills throughout the year.

MODERN FORMS BLUETOOTH REMOTE TECHNOLOGY

CONTROL WITH CONFIDENCE.

Bluetooth Remote Technology controls both luminaire brightness and six fan speeds to ensure performance and reliability.

Nearly every Smart Fan is equipped with an energy efficient, state of the art LED luminaire—engineered by WAC to deliver beautiful robust illumination and precise 0-100% dimming control.

Change from summer to winter mode from your Bluetooth control to circulate cool air flow or reverse the fan to redistribute warm air. With your Modern Forms Smart Fan, easily switch modes at the push of a button or automatically as your thermostat changes from cooling to heating.

A Bluetooth remote pairs easily to an infinite number of intelligent ceiling fans located within a 150 foot range.

Professional Assets

LOCAL & GLOBAL CONTROL: THE WI-FI and BLUETOOTH STORY

With the Bluetooth remote or wall control, you can control an unlimited number of fans within signal range – one – five – twenty-five. With Wi-Fi, the app can control a virtually unlimited number of fans—one, twenty, two hundred...from anywhere around the world.

Best of Both Worlds:

The remote or wall control may be used in conjunction with the Modern Forms app if desired, to have both local and global control.

Form a Group:

Create groups of fans to make scheduling more efficient. Organize them by room type, floor number, location or style. Copy schedules from one group to another.

Plays Well with Others:

The Modern Forms app ties into other building control systems such as Control 4 and Samsung SmartThings.

Bluetooth:

A Bluetooth enabled remote or wall control is supplied with every new Modern Forms Smart Fan. For instantaneous control, Bluetooth is best. Powerful enough to pass through walls and doesn't require line of sight as required by IR.

Local Control:

The Bluetooth remote or wall control makes it convenient to operate your fans locally without relying on Wi-Fi or Internet access to connect with a cloud.

Synchronized Spinning:

Problem-free installation and operation of multiple fans in a series. Hold the button on the remote to set all fans in a group to the same setting.

No Plan? No Problem:

Control one or all of the fans in a room with any number of remote or wall controls without the need for complicated 3-way or 4-way wiring.

By Invitation Only:

Invite users to control fans via the app—they can customize their own schedules temporarily while you maintain master control.

Go Big or Go Home:

Modern Forms DC motors provide the torque necessary to quietly and efficiently power the largest designer fans on the market with superior CFM rating for air movement.

Sensorless DC motors:

Proprietary technologies were developed to control DC motors without the need for optical sensors, which have shorter lifespans.

Sloped Ceiling Degree Conversion Chart

Degree	4-8°	9-13°	14-17°	18-21°	22-25°	26-29°	30-32°	33-35°	36-38°	39-41°	42-44°	45°
Ceiling Slope Pitch	1/12 pitch	2/12 pitch	3/12 pitch	4/12 pitch	5/12 pitch	6/12 pitch	7/12 pitch	8/12 pitch	9-12 pitch	10/12 pitch	11/12 pitch	12/12 pitch

Supplied mounting brackets allow mounting on ceiling slopes up to 30° (7/12 pitch), optional slope kit allows mounting on ceilings up to 45° (12/12 pitch). The receiver will mount inside canopy.

ILLUMINATING EXPERIENCES:

Ceiling fans are commonly the only light source in a room. The luminaires within Modern Forms Smart Fans were custom designed to accommodate each unique fan to provide the maximum amount of usable illumination.Each luminaire incorporates WAC’s proprietary dimming and control technology for smooth and continuous full-spectrum dimming from 100% to 1%. Available in 2700K, 3000K and 3500K color temperature modules.
