

MODERN FORMS® | 2025  
SMART FANS | CATALOG

Sleek design, advanced technology and flexible control solutions.  
Connect with smart home devices you already own to ensure the ultimate  
in comfort and seamless interoperability. With state-of-the-art features,  
color temperature options and silent energy-efficient DC motors,  
our smart fans stand alone. The future of luxury is here.

# DESIGN INTEGRITY

Intentionally engineered for durability and continuity throughout each design.

## MATERIALS

Sturdy die-cast aluminum & marine-grade stainless steel housings provide elegance and sophistication.

## COHESIVENESS

Maintain design continuity indoors and out by selecting a designer fan that complements the architecture.

## VERSATILITY & WET RATING

Wet-rated Smart Fans extend your living spaces outdoors, offering refreshing breezes while maintaining harmony with your architecture. With sizes ranging from 26 to 120 inches, these fans provide seamless design continuity across any setting.

# ADVANCED SMART FAN TECHNOLOGY

Modern Forms combines luxury and innovation, offering smart ceiling fans with intelligent controls. These fans integrate with major smart home systems like Control4, Alexa, Google Assistant and SmartThings. Features include voice commands, automated schedules and compatibility with smart thermostats, which help reduce heating and cooling costs year-round.

# COMMITMENT TO INNOVATION

Modern Forms leads with groundbreaking advancements, offering comfort, safety and cutting-edge design. Ideal for residential and commercial spaces, Modern Forms Smart Fans deliver simple yet personalized solutions for the modern lifestyle.

# EFFORTLESS CONTROL

Equipped with Bluetooth remote technology, Modern Forms Smart Fans deliver precision control over six fan speeds and dimmable LED luminaires. Easily switch between summer and winter modes to optimize airflow or redistribute warmth. A single Bluetooth remote can manage multiple fans within a 150-foot range.

Professional Assets

LOCAL & GLOBAL CONTROL: THE WI-FI and BLUETOOTH STORY

With the Bluetooth remote or wall control, you can control an unlimited number of fans within single range - one, five, twenty five. With Wi-Fi, the app can control a virtually unlimited number of fans - one, twenty, two hundred... From anywhere around the world.

Best of Both Worlds:

The remote or wall control may be used in conjunction with the Modern Forms app if desired, to have both local and global control.

Form a Group:

Create groups of fans to make scheduling more efficient. Organize them by room type, floor number, location or style. Copy schedules from one group to another.

Plays Well with Others:

The Modern Forms app ties into other building control systems such as Control 4 and Samsung SmartThings.

Bluetooth:

A Bluetooth enabled remote or wall control is supplied with every new Modern Forms Smart Fan. For instantenous control, Bluetooth is best. Powerful enough to pass through walls and doesn't require line of sight as required by IR.

Local Control:

The Bluetooth remote or wall control makes it convenient to operate your fans locally without relying on Wi-Fi or Internet access to connect with a cloud.

Synchronized Spinning :

Problem-free installation and operation of multiple fans in a series. Hold the button on the remote to set all fans in a group to the same setting.

No Plan? No Problem:

Control one or all of the fans in a room with any number of remote or wall controls without the need for complicated 3-way or 4-way wiring.

By Invitation Only :

Invite users to control fans via the app - they can customize their own schedules temporarily while you maintain master control.

Go Big or Go Home :

Modern Forms DC motors provide the torque necessary to quietly and efficiently power the largest designer fans on the market with superior CFM rating for air movement.

Sensorless DC motors :

Proprietary technologies were developed to control DC motors without the need for optical sensors, which have shorter lifespans.

ILLUMUNATING EXPERIENCES:

Ceiling fans are commonly the only light source in a room. The luminaires within Modern Forms Smart Fans were custom designed to accommodate each unique fan to provide the maximum amount of usable illumination. Each luminaire incorporates WAC's proprietary dimming and control technology for smooth and continuous full-spectrum dimming from 100% to 1%. Available in 2700K, 3000K and 3500K color temperature modes.

Entire Line of Modern Forms Smart Fans
