CRYSTAL SELECTIONS

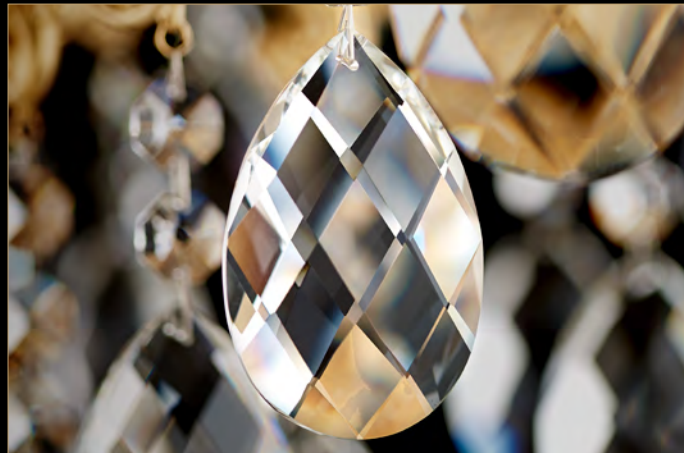

OPTIC CRYSTAL (O)

Modern advancements in the manufacture of optics used in telescopes have ushered in a new generation of crystal. Created to enhance internal light refraction, the Optic Crystal used in Schonbek luminaires catapults new designs into the future.

SPECTRA® CRYSTAL BY SWAROVSKI (A)

Spectra® Crystal offers an assortment of timeless crystal made from carefully selected raw materials, designed & engineered in Austria. Spectra features optical purity, razor-sharp faceting and precise cuts that give this crystal its refractive beauty. Spectra crystal is prismatically brilliant and polished to perfection, offering superior light reflection.

HERITAGE HANDCUT CRYSTAL (H)

European crystal hand-cut by craftsman using centuries-old techniques, Heritage Handcut® Crystal is created in two stages. First cut on iron and sandstone wheels a single facet at a time with marble dust on a wooden wheel. Each jewel created is an authentic antique replica of gems that adorned the castles of the Habsburg Empire.

QUARTZ CRYSTAL (QC)

Timelessly representing nature's artistic signature in every gemstone, Schonbek Quartz Crystal is sustainably mined. Care is first taken to hand select stones with unique fissures and veining. From there, skilled gem cutters cut, grind, and polish each rock crystal to enhance its natural splendor, luminosity and dazzling prismatic beauty. A Schonbek dressed in Quartz Crystal celebrates unaltered natural beauty.

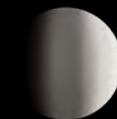

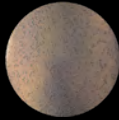

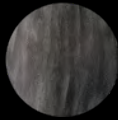

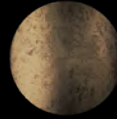

INTRODUCTION

LA SCALA

As a style developed by craftspeople and designers, the ornate Rococo period emerged in early 18th century France in rebellion of Louis XIV's strict Baroque ideals. CONTEMPORARY

As abstract expressions challenge traditional conventions, a Contemporary Schonbek is a sophisticated silhouette offering an elegant touch to modern settings. Simple lines and curves with layered tiers of dazzling crystal create provocative forms that amaze and astound. Customize to epic proportions to create a sensational statement.

SARELLA

Glinting metal drops romanticize the sparkling geometric forms they overlay to suggest an intrigue of subtle texture. Hopefully romantic, Sarella interplays the two materials as love at first sight.

CRAFTED IRON

In the guild tradition of wrought ironwork, a Crafted Iron Schonbek is defined by its lustrous metal frames. Whether simply colonial or ornately renaissance, each resplendent masterpiece is dressed in gems that accentuate the metalwork and withstand the test of time.

VESCA

Popular in the mid-19th century, architectural cast iron features symbolized vigor and achievement. Brazenly presented on Vesca, and gently trimmed for levity, this design is structural and well balanced.

POST MODERN

An ideological expression of performance art, a Post Modern Schonbek connects to an audience with dramatic juxtaposition. Dazzling with prismatic fire to contrast brutalist forms, the intentional visual dissonance makes it impossible to look away.

EMILEA

Tailored and graceful, Emilea is polished and tastefully modern. Refinements are visible in every detail, from its upturned cast arms to its fitted hardback shades and mesmerizing crystal finial. This Schonbek entertains and delights with the warmth of genuine hospitality.

NEW ORLEANS

Designed with an unapologetically opulent display of shimmering crystal in the French Baroque style of the late 17th century, New Orleans is a festive dance of twirling branches around a sculptural crystal column. Sumptuously decorated with a flight of garlands, cups and jewels, this Schonbek introduces an undeniable sense of grandeur.
