CRYSTAL

SELECTIONS

OPTIC CRYSTAL (O)

Modern advancements in the manufacture of optics used in telescopes have ushered in a new generation of crystal. Created to enhance internal light reflection, the Optic Crystal used in Schonbek luminaires catapults new designs into the future.

HERITAGE HANDCUT CRYSTAL (H)

European crystal hand-cut by craftsman using centuries-old techniques, Heritage Handcut® Crystal is created in two stages. Using a wheel made of sandstone and iron, the crystal is cut, then polished with marble dust on a wooden wheel. Each jewel created is an authentic antique replica of gems that adorned the castles of the Habsburg Empire.

AMETHYST CRYSTAL (AM)

Amethyst crystals deliver a rich, regal accent inspired by classic violet gemstones. Colored fully throughout the material, each crystal is meticulously cut and polished to maximize sparkle and jewel-like brilliance. This expressive violet hue infuses chandeliers with warmth, glamour, and a touch of old-world sophistication.

BLACK DIAMOND CRYSTAL (BD)

Black Diamond crystals offer bold sophistication with a smoky, modern edge. Their deep color runs throughout the crystal, then is brought to life through sharp faceting that enhances contrast and dramatic light play. Evoking vintage black glass and deco-inspired jewelry, they bring contemporary elegance to traditional crystal forms.

OLIVINE CRYSTAL (OL)

Olivine crystals add a touch of vintage charm with their soft, verdant glow. Each crystal is colored throughout and then precisely cut and faceted to reveal its luminous green depth. Their fresh, organic radiance brings subtle color and romantic nostalgia to any chandelier design.

CRYSTAL SELECTIONS

RADIANCE CRYSTAL (R)

Our finest crystal offering in cut, color and clarity, Radiance® by Schonbek is engineered brilliance. Characterized by optical purity and prism, each gem has nearly triple the number of jewel-cut facets over mass produced crystals, and delivers a kaleidoscope fire that dances and dazzles.

RADIANCE CRYSTAL DUST (R)

Radiance® Crystal Dust is composed of tiny jewel-cut facets each sized, shaped and polished to shimmering perfection. Fabricated in Europe at the premier source for lead-free crystal, thousands of these brilliant gems embellish our lighting designs, casting luminous beams that dance and dazzle.

OPTIC HAZE QUARTZ (OH)

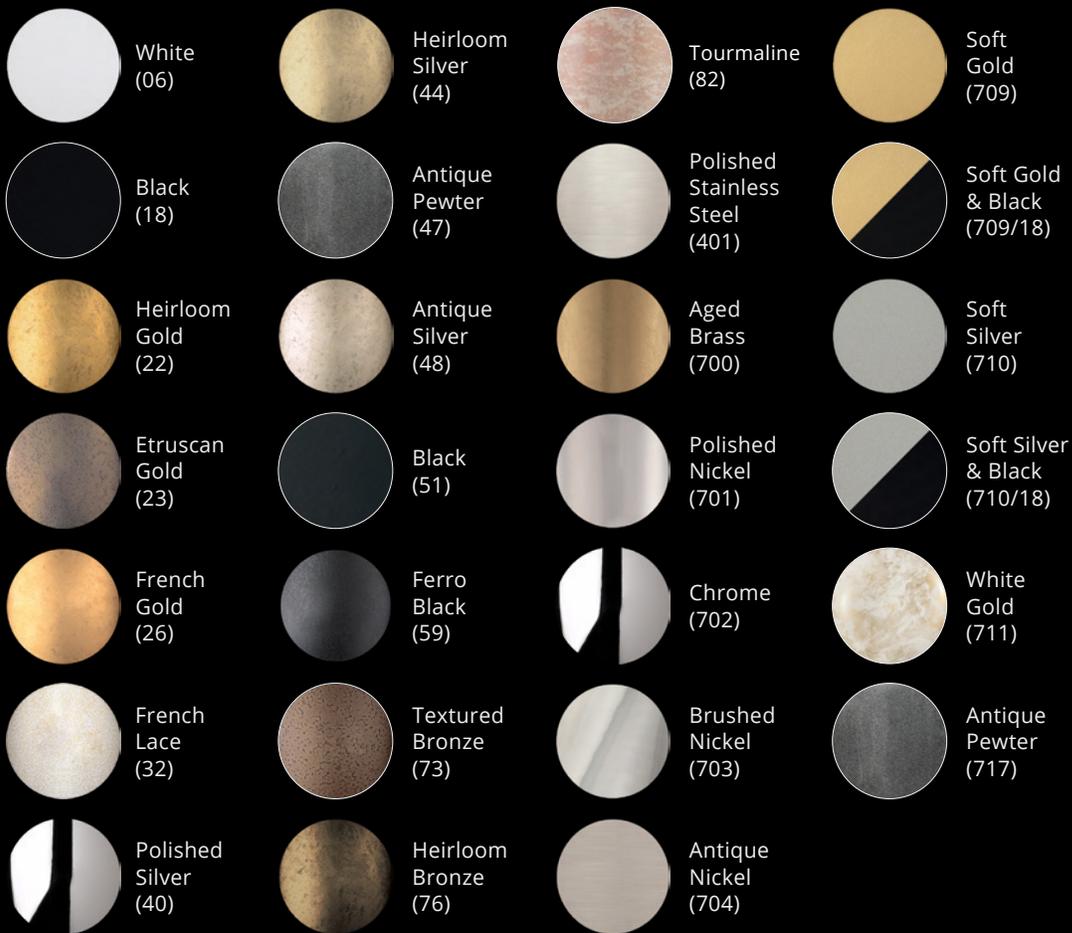

Optic Haze® Quartz has the same composition and prismatic brilliance of natural quartz. Expertly refined by gem cutters, each piece offers remarkable depth and clarity. Subtle, naturally occurring inclusions softly diffuse the light, creating an organic glow that enhances its unique character. The result is a one-of-a-kind radiance that elevates every Schonbek fixture.

BANGELLE

Bangelle evokes the allure of a handcrafted bracelet—fluid, radiant, and timelessly elegant. An articulated metal frame surrounds a row of round, pressed glass pucks with Radiance® Crystal dust diffuser, each refracting light with the luminous intensity of cut gemstones. The composition feels both structured and organic, like a strand of light suspended in motion.

POST MODERN

An ideological expression of performance art, a Post Modern Schonbek connects to an audience with dramatic juxtaposition. Dazzling with prismatic fire to contrast brutalist forms, the intentional visual dissonance makes it impossible to look away.

ALINA

With a striking sense of symmetry and light play, Alina captures the allure of sculptural precision. Cascading tiers of Optic Crystal bars are encircled by laser-cut metal bands with a signature square motif. Its pyramid form radiates contemporary elegance, while each crystal refracts light in dazzling layers of brilliance.

STERLING LINEAR

Celebrate classical heritage with Sterling Linear. These authentic Bohemian crystal Schonbeks are historically patterned with hand-formed crystal arms, finely cut pendants, columns and bobeches. Painstakingly crafted using the same care as the guild masters of old, a Sterling Linear is a magnificent centerpiece fit for a ball in any age.
