SMART FAN  
SOLUTIONS

2026  
SUPPLEMENT

# INTELLIGENT CONTROL FOR MODERN SPACES

## Unified Local & App Control

Bluetooth and Wi-Fi work together to give you flexible, dependable fan control, locally or globally. Use the included Bluetooth remote or wall station for instant in-room responsiveness without WiFi. For cloud-based access, automation, scenes, and expanded system features, Elite Series smart fans connect through the MyWAC® app, while Select Series smart fans operate through the Modern Forms app.

## Flexible Installation & Compatibility

Control any fan in a space with any combination of Bluetooth remotes or wall controls—no complex 3-way or 4-way wiring required. Modern Forms Smart Fans also integrate with major control platforms.

## Multi-Fan Grouping

Control one fan individually or many fans as a group. Organize fans by room, floor, or zone, synchronize speed and direction across multiple units, and copy schedules between groups for faster setup.

## Guest & Shared Access

Easily grant temporary app access so guests or staff can adjust settings or schedules without changing your master configuration.

## Performance-Driven Motor Technology

Modern Forms fans use high-efficiency DC motors that provide strong, quiet airflow. Our proprietary motor design eliminates traditional sensors that can fail or degrade, so the motor stays reliable and efficient for years to come.

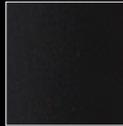

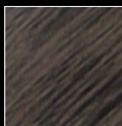

## Breeze Mode: Natural Airflow Comfort

A dynamic mode that automatically varies fan speed to mimic the natural pattern of outdoor breezes, creating a more comfortable, lifelike airflow experience.

## Advanced LED Illumination

Designed to illuminate as well as cool, these fans provide ample light output, smooth full-range dimming, and 4CCT selectable 2700K, 3000K, 4000K and 5000K settings. 2026 Elite Series models also offer Tunable White in the MyWAC® app and include a 3500K option for 5CCT selectable light.

# Elevated Materials. Evolved Design.

For Inspired Spaces

Introducing a new era of intentional, sculptural design, where graceful movement, luxurious materiality, and premium performance are seamlessly intertwined.

- Aerodynamic blade profiles
- Wrapped wood accents for dimensional texture
- Natural Spanish Alabaster, Rippled Injection-Molded Acrylic & Reclaimed K5 Crystal diffusers
- Rich finishes bring warmth, contrast, and dimensionality

## DIFFUSER OPTIONS

Robust Zinc Hanger Bracket -  
Made to stand the test of time

Stability Bar - Secures  
Hanger Ball

Stainless Steel Stability Screws -  
Locks hanger ball into position  
and prevents it from lifting

## The Future of Fan Stability – Only from Modern Forms

Stronger Stability Engineered for Steady Performance

---

Introducing a new patent-pending fan stabilizer accessory engineered to deliver greater outdoor reliability and long-term performance.

- Locks the hanger ball to eliminate sway and vibration
- Ensures steady operation in coastal and high-wind areas
- Engineered to withstand high winds: Passed a Level 12 Beaufort test (74-83 mph)

## Smart Fan | Elite Series

Enhanced Power, Superior Stability  
& Elevated Design

---

The new Smart Fan Elite Series features advanced engineering with enhanced stability, faster installs, upgraded electronics, and high-output lighting. These innovations are paired with elevated design details, richer materiality, and sculptural forms for modern spaces.

# NEW Fan Remote & Wall Station Technology

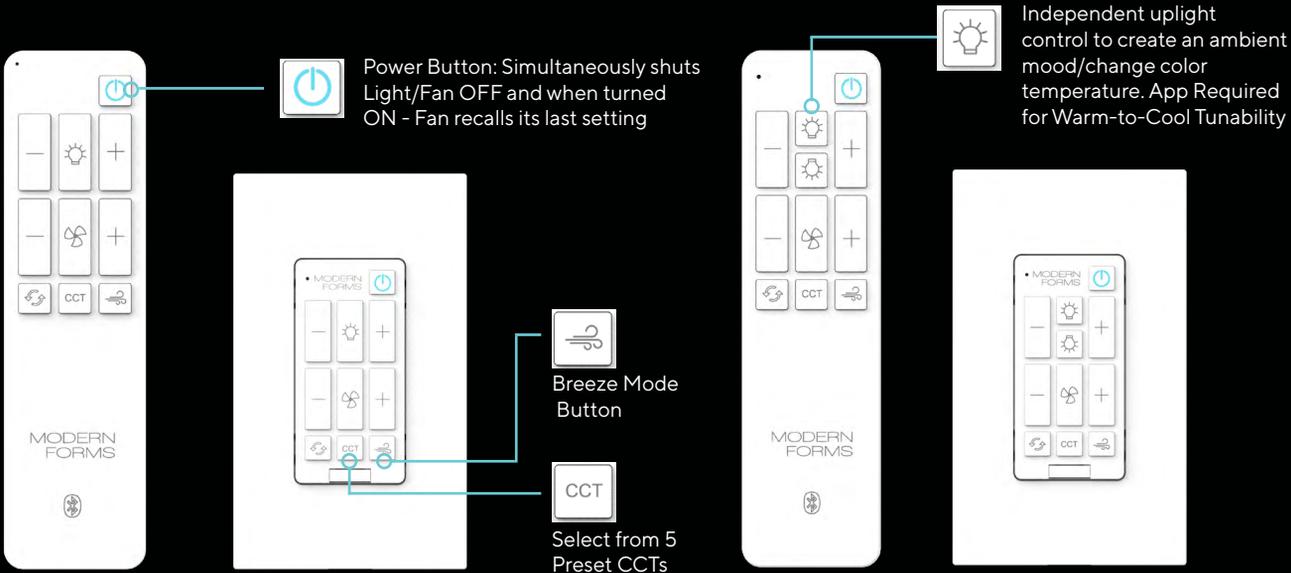

## Precision Control at Your Fingertips

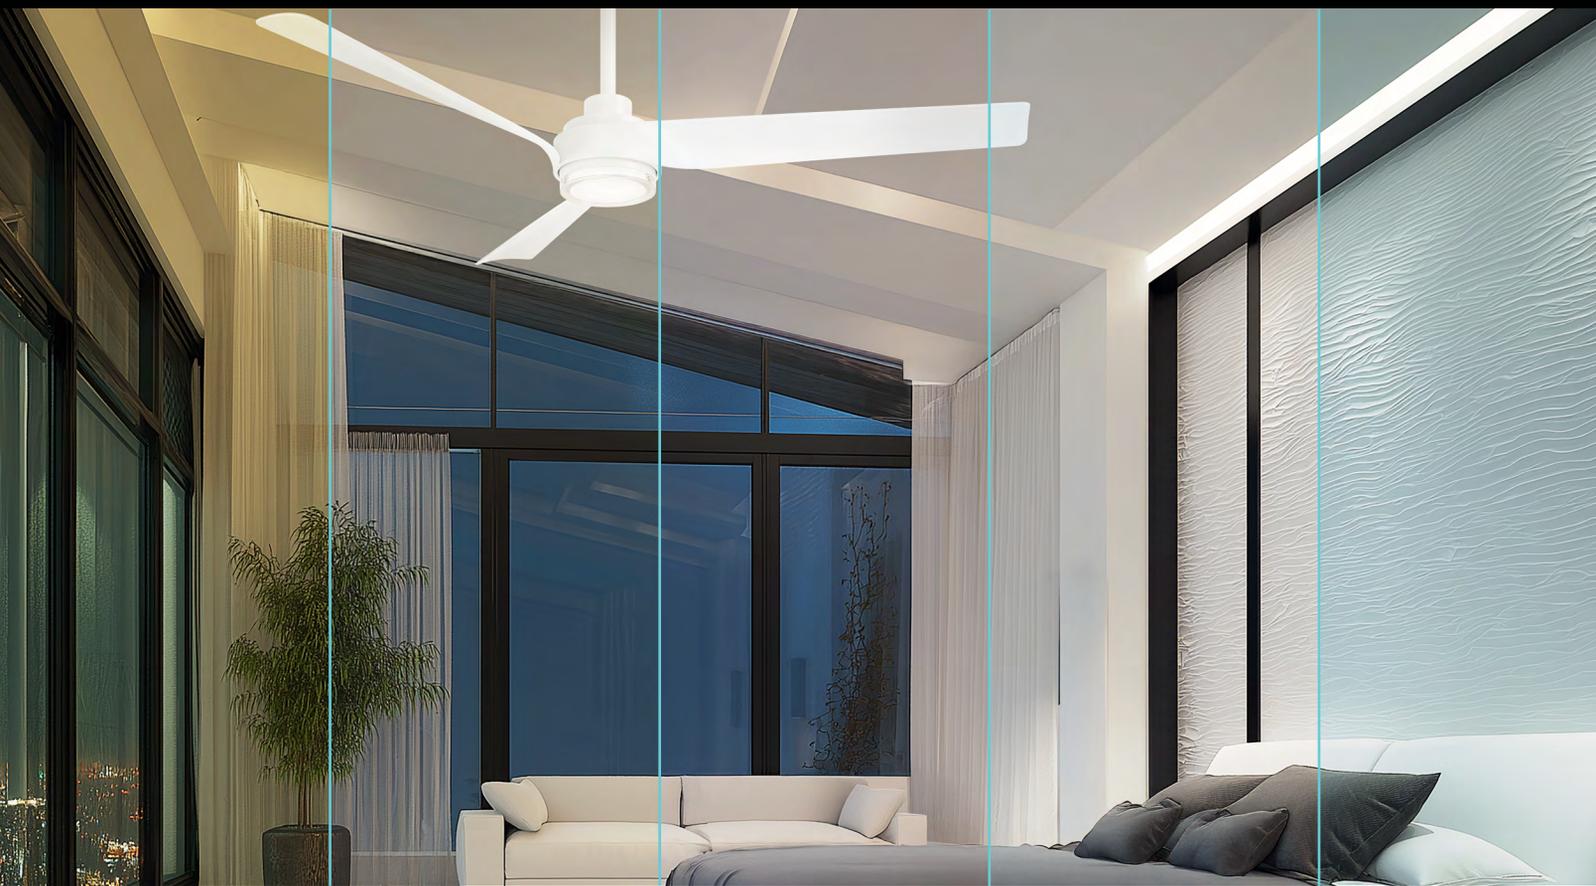

Our newly redesigned control platform eliminates common frustrations and enhances day-to-day ease. Purpose-built for faster, cleaner, and more reliable control, it feels as smart as the fans it commands.

- Remote powered by AAA batteries and secured in a reinforced cradle
- Independent on/off and dimming control for uplight & downlight
- Toggle between five fixed CCT selections (2700K-5000K)
- Redesigned receiver for improved reliability and streamlined wiring
- Remote and wall station pair seamlessly with the MyWAC® app for unified fan & lighting management

## Tunable White

Exclusively available in the MyWAC® App

Elite Series fans feature Tunable White controls where users can smoothly adjust the light from warm to cool with an intuitive slider.

- App-only warm-to-cool tuning
- Unified up/downlight adjustment
- Scene-based automation for daily rhythms
- Match lighting tone to materials, palettes, and mood

## Smart Fan | Select Series

An Elevated Approach to Smart  
Comfort & Design

---

The Smart Fan Select Series delivers the dependable performance, quiet comfort, and intuitive control that defined our original platform. These versatile models feature clean, timeless design details and premium craftsmanship that enhances everyday living with proven smart technology.

## DESIGN INTEGRITY

---

Intentionally engineered for durability and continuity throughout each design.

## MATERIALS

---

Sturdy die-cast aluminum & marine-grade stainless steel housings provide elegance and sophistication.

## VERSATILITY & WET RATING

---

Wet-rated Smart Fans extend your living spaces outdoors, offering refreshing breezes while maintaining harmony with your architecture. With sizes ranging from 26 to 120 inches, these fans provide seamless design continuity across any setting.

## COMMITMENT TO INNOVATION

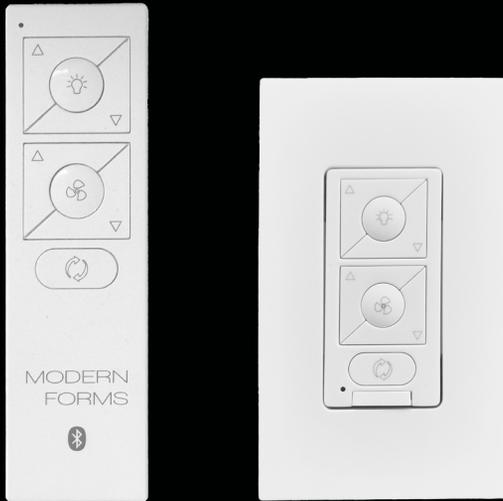

---

Modern Forms leads with groundbreaking advancements, offering comfort, safety and cutting-edge design. Ideal for residential and commercial spaces, Modern Forms Smart Fans deliver simple yet personalized solutions for the modern lifestyle.

# SMART HOME

Intergration Made Simple.

## EFFORTLESS CONTROL

Equipped with Bluetooth remote technology, Modern Forms Smart Fans deliver precision control over six fan speeds and dimmable LED luminaires. Easily switch between summer and winter modes to optimize airflow or redistribute warmth. A single Bluetooth remote can manage multiple fans within a 150-foot range.

## ADVANCED SMART FAN TECHNOLOGY

Modern Forms combines luxury and innovation, offering smart ceiling fans with intelligent controls. These fans integrate with major smart home systems like Control4, Alexa, Google Assistant and SmartThings. Features include voice commands and automated schedules, which help reduce heating and cooling costs year-round.

# Accessories

## Downrod and Cap Couplers

Downrod		<b>XF-12</b> 12in	<b>XF-48</b> 48in	All downrods are 0.75" I.D. and are threaded on the motor end to create an extra layer of security and allow for adjustments in the field.
		<b>XF-18</b> 18in	<b>XF-60</b> 60in	
		<b>XF-24</b> 24in	<b>XF-72</b> 72in	
		<b>XF-36</b> 36in		

Downrod Couplers		<b>XF-I</b>	Connects two downrods together
------------------	---	-------------	--------------------------------

Example: **XF-18-MB**

## Sloped Ceiling Kit

Sloped Ceiling Kit

**XF-SCK**

Example: **XF-SCK-MB**

Designed to accommodate buildings with steeper sloped ceilings up to 45° or 12/12 pitch

<b>AN</b> Antique Nickel	<b>BZ</b> Bronze	<b>MW</b> Matte White	<b>SS</b> Stainless Steel
<b>BA</b> Brushed Aluminum	<b>GH</b> Graphite	<b>OB</b> Oil Rubbed Bronze	<b>ST</b> Steel
<b>BN</b> Brushed Nickel**	<b>MB</b> Matte Black	<b>SB</b> Soft Brass**	<b>TT</b> Titanium Silver

\*\*Brushed Nickel and Soft Brass are not intended for coastal environments.

## FAN STABILIZER - PATENT PENDING

**F-STBLZ**

Adds stability to fan

Works with all Modern Forms Smart Fans.  
Downrod not included. See p.3 for more information

## OPTIONAL DIFFUSER (Sold Separately)

**RPL-SMOOTH-RDA**

Rippled Injection-Molded Acrylic Diffuser

Works with all Smooth collections (FR-W2502, FH-W2502, & FR-W2601)

## Sloped Ceiling Degree Conversion Chart

Degree	4-8°	9-13°	14-17°	18-21°	22-25°	26-29°	30-32°	33-35°	36-38°	39-41°	42-44°	45°
